

Saugeen Shores Celebrates Canada's 150th

July 27, 2017

Our Canada 150th events which took place in Saugeen Shores from June 30 - July 8, 2017 required security to ensure our events and event patrons' optimal safety. Our Canada 150th planning committee has been thrilled with the work ethic and professionalism of our Fairmount Security Services Team.

Tom Wheildon and his team of security professionals which were present at our Canada 150th events were top notch! We received numerous compliments and comments from our event attendees and hired bands stating how great our security team was, which as the event organizers was certainly nice to hear that our hired team was suiting the needs of our events!

The peace of mind that our teams received from having this great company take care of our security needs was fabulous and we would certainly hire Fairmount Security for any other events we may host in the future.
